

Dear Resident/ Homeowner

25/6/22

**Bloodstock Open Air 11th – 14th August 2022
Catton Park, Walton on Trent**

It's that time of year again with the Bloodstock festival due to take place in a few weeks' time. For those of you who are not aware of Bloodstock, this will be our 16th year based at Catton Park and our 21st year of Bloodstock with a licenced capacity this year of 20,000 attendees, most of which camp for the weekend.

As always, we would like to provide you with some useful information to help you get through the festival weekend with as little disruption as possible.

The festival site build will commence on Tuesday 2nd August and the site will be totally cleared by Friday 19th August.

The campsite opens its doors to festival goers on Thursday 11th August. We still have 4 stages at Bloodstock – The main outdoor stage which is the Ronnie James Dio stage opens at 10.30 am on Friday, The Sophie Lancaster Stage is situated inside a Big Top and opens Thursday evening at 17.00, The New Blood Stage is our 3rd stage inside another Big Top which opens on Friday and the Jagermeister Acoustic stage is our fourth and smallest stage in the arena which also opens on Friday.

NOISE

Bloodstock is a rock and metal festival and is the largest festival in South Derbyshire... so it can get a little noisy at times!!

Head Office: **AMUST4MUSIC LTD** 54 Arundel Drive, Spondon, Derby, DE21 7QW

Company Registration No: 4101766

Leading up to and during the festival we will continually work closely with the District Council, and with a noise consulting agency, to ensure that all noise levels coming from the festival are within the legal limitations for the area. Professional noise checks will be carried out throughout the duration of the festival.

We intend to carry out a test of the sound system on Thursday 11th, to be overseen by the Environmental Health Departments' Pollution Control officer. This allows us to set levels in the Arena that will not impact unduly on the surrounding area.

It may help to bear in mind change in weather conditions can also effect noise levels slightly, therefore on one day you may hear very little if anything from the festival site and on another day you may think it's louder. Onsite noise levels will not have changed – low lying cloud and wind carries sound further than if it were a clear day with little or no wind at all.

SECURITY & CROWD MANAGEMENT

We continue to invest heavily in our security and crowd control operation and are once again employing the services of the UK's Industry award winning event security company SHOWSEC www.showsec.co.uk. We will have security operating 24 hours a day from the first day of our build right through until we leave site on 19th August.

SITE LAYOUT

The festival site will be a very similar layout to last year with the Public Car Park situated on the field directly across the road from the main Catton Hall building with the festival entrance approximately 900 metres down the road directly opposite the Round House. The VIP car parking will once again be in the field directly across the road from the production entrance. Campervans are also across the road to allow for extra camping on the fields that run along the river, we will also be using the small Rugby field this year to accommodate 100 extra campervans. The main pick up and drop off point for taxis and other vehicles is situated in the main public car park on Thursday and Monday. However, this pick-up and drop-off point will be relocated only during the live event days which are Friday, Saturday and Sunday to the 'Coach drop off point' at X8 (as shown on the map).

TRAFFIC

Disruption to the road network is inevitable at certain times during the festival weekend. However, we go to great lengths to minimise this disruption as much as possible. If vehicles breakdown on the road en-route to the festival this can increase road congestion for a short time until the vehicle is recovered. We will have recovery vehicles on standby from Thursday to Monday in case of such an event.

The road networks will be generally more congested leading up to and during the festival weekend than would normally be expected. Due to the fact that the majority of our festival goers camp for the whole weekend, the traffic coming to the festival from the morning of Thursday 11th will be the busiest.

All campers have to vacate the campsite by the afternoon of Monday 15th August. This means that the highest volume of traffic coming away from the festival can be expected between Sunday night and Monday morning.

Due to the traffic management measures on Chetwynd Bridge, we will be instigating additional measures in an attempt to alleviate the effect for both existing road users and our own event traffic. However, we have to prioritise the A38 and therefore local traffic on travelling northbound on the A513 to the A38 will experience delays and we would encourage those who can to use alternative routes especially during our peak traffic periods.

Once again this year there will be temporary public crossings with temporary traffic lights in place at 4 locations on the main Catton Road to allow festival goers to cross the road safely from the

Head Office: **AMUST4MUSIC LTD** 54 Arundel Drive, Spondon, Derby, DE21 7QW

main public car park, the VIP car park and the campervan site and crew campsite. So please be conscious of the public crossings if travelling along the road from the A513 (A38). PLEASE NOTE – **There will be a temporary speed restriction to 30mph on the main road along Catton Park and Catton Hall from Monday 1st to 19h August.**

Temporary road signs will be in place again this year directing all traffic away from the village to ensure as little disruption as possible during the festival weekend.

We have also instructed all our suppliers/contractors not to drive through Walton on Trent Village and have informed them that we will issue fines to any who we find to break these guidelines. However, due to weight restrictions recently implemented on Chetwyn Bridge and the low bridge further along, the fairground may have no alternative route to take. We will communicate to local residents nearer the time, which day they may have to use the village route.

BLOODSTOCK & THE COMMUNITY

We would like to thank you for being supportive residents of the Bloodstock festival and hope that we can continue to work alongside you to maintain a good relationship for years to come.

CONTACT US

Should you have any questions about this year's festival, do not hesitate to contact me by email or call our head office.

During the festival weekend we have a 24 hour dedicated resident's phone line within our Event Control Office on site; this will be in operation between the following times: Thursday 11th August at 12 midday, until Monday 15th August at 12 midday.

Bloodstock Head Office - 01332 666370 (please use the residents line below during Festival Weekend)

Residents Onsite 24 hour Phone Line - **07486 117686** this will be activated at 12 midday on Thursday 11^h August 2022 through to Midday on Monday 15th August 2022

Yours sincerely

Rachael Greenfield
